

CELSO GONZALES LAGGUI JR.

Software Developer

San Fermin, Cauayan City, Isabela | 0936-685-0732 | celsolaggui@gmail.com | <https://oztech-lusd.vercel.app>

Summary

Experienced Software Developer with expertise in designing and implementing frontend and backend applications. Skilled in various technologies, focusing on building scalable solutions that address challenges across multiple industries. A quick learner with a proven ability to collaborate in teams, solve complex problems, and deliver high-quality results within set timelines.

Work Experience

Senior Software Developer | Radztech Business Solutions | June 2021 – Present

- Contributed to the development of core features for a cloud-based **ERP System** that support various industries including Distribution, Restaurants, e-Commerce, Motorcycle Dealers and Government System.
- Created dynamic and interactive dashboards tailored to client needs, offering real-time insights and advanced data visualization for strategic decision-making.
- Created custom reports tailored to meet client needs and requests.
- Integrated APIs, such as JNT order creation and order tracking status, to streamline logistics for the e-Commerce Industry.
- Collaborated with Operations Department to deliver successful products.
- Led junior software developers, assign tasks, and manage resources to ensure project milestone are met.
- Debugged and resolved critical issues reported by users or testers.

Technical Support | Government Service Insurance System | Oct 2019 – Jun 2021

- Developed and deployed an **eCard Inventory System** to streamline tracking, management, and distribution of digital cards, resulting in reduced data redundancy, optimized disk space usage, real-time information, minimized human errors, and the ability to serve multiple clients efficiently.
- Provided technical support to address software, hardware, and network-related issues.

Web Developer | Technosite I.T. Business Solutions | Jul 2019 – Jun 2020

- Developed and deployed a **Hotel Management System** with features such as reservation, check-in/check-out, amenities and discounts management, a customer master list, and an operational dashboard for efficient monitoring and management.
- Contributed to the development of web-based applications by implementing key features, optimizing performance, and enhancing functionality.

Technical Skills

- Frontend: React.js, TypeScript, Vue.js, Material UI, Tailwind CSS, Ant Design.
- Backend: Laravel, Node.js, Express.js, Java Spring-Boot.
- Database: MySQL, PostgreSQL.
- Version Control: Git, GitHub.
- Others: Figma, Postman, Docker, Microsoft Office.

Soft Skills

- Team player with leadership experience.
- Strong problem-solving skills.
- Quick to learn new technologies.
- Skilled in task prioritization and deadline management.
- Effective communicator and collaborator.
